

FOAM-LOK[®] 2000-3G

Lapolla's NEW Closed Cell Insulation System

EXCEPTIONAL ENERGY EFFICIENCY AND HIGH R-VALUE

FOAM-LOK 2000-3G is a lightweight, durable, versatile insulation solution ensuring the highest performance in energy efficiency and energy cost savings. Closed-cell spray foam insulation systems, when properly installed, deliver energy savings of up to 40%.

The solid structure of **FOAM-LOK 2000-3G** seals the building envelope, providing an air barrier, thermal barrier, and moisture barrier with excellent resistance to water. The density of closed-cell spray foam is approximately two pounds per cubic foot. The medium density foam provides sheer and racking strength to wall assemblies in building applications.

PROVIDES SUPERIOR
ENERGY ECONOMY
AND DURABILITY

ICYNENE  LAPOLLA[®]

WHY FOAM-LOK® SPRAY FOAM INSULATION?

With exceptional energy efficiency performance, **FOAM-LOK 2000-3G** exceeds today's building code requirements. Achieve required R-values utilizing 2" x 4" construction, eliminating the expense of 2" x 6" framing. One product offering multiple solutions, it helps to reduce labour costs and stay on schedule.

FOAM-LOK 2000-3G is the optimal solution for new construction or retrofit applications in both residential and commercial buildings.

YOUR OPTIMAL SOLUTION FOR...

- Improving energy efficiency
- Proven durability
- Maintaining consistent temperatures
- Firm adherence to framing members and substrates
- FEMA-approved flood resistant insulation material
- Reducing HVAC size
- Net Zero Energy and Passive House Design
- Effective insulation for all climate zones

PROTECTION IN ANY CLIMATE

Lapolla's **FOAM-LOK 2000-3G** Spray Foam Insulation technology is an effective insulation system to seal, protect, and insulate structures. **FOAM-LOK 2000-3G** spray foam insulation is a fully adhered, seamless barrier against the harshest of environments.
