

Thermo-Flex®

Acrylic Roof Coating Systems

Seamless Waterproofing to Extend the Life of Your Roof

Choosing to spray foam your roof can reduce the wear and tear that occurs with traditional roofing materials. Applying Lapolla's **Thermo-Flex** Foam and Coating system preserves the life of commercial and residential roofs. This advanced insulation is applied to any design and most substrates, sealing the building envelope to stop heat transfer through the roof deck.

Thermo-Flex is formulated using an advanced 100% acrylic polymer technology and is ideal for low-slope roofing applications with positive drainage, in new and retrofit construction. Acrylic elastomerics provide an economical solution, available in standard, quick-set and fast-set formulas.

WHY THERMO-FLEX® COATING SYSTEM?

THERMO-FLEX is an economical and effective roof coating system for application over new and existing roof substrates. In re-roofing applications, **THERMO-FLEX** applied over spray foam eliminates costly “tear-off,” land-fill fees, interior exposure and down time.

Whether the right choice for you is 100% Acrylic TF 1000 , TF 750 or TF 500, rest assured the **THERMO-FLEX** technology, with years of proven reliability, will provide you the cost savings and performance you require.

THERMO-FLEX® BENEFITS

- Provides a seamless umbrella over new and existing roof substrates
- Best insulation value per inch
- 100% Adhesion
- Self-Flashing
- Slopes to drain
- System is lightweight
- Renewable
- 60 Years of Proven Performance
- Meets requirements for California Title 24

COMPLETE ROOF PROTECTION

The **THERMO-FLEX** foam and coating system is a designed to protect, preserve and prolong the life of both commercial and residential roofs. This system includes **FOAM-LOK** Polyurethane Spray Foam and **THERMO-FLEX** acrylic roof coating, creating a high-performance insulation solution.

Lapolla's **FOAM-LOK** Spray Foam Roofing System is a sustainable spray foam used in a wide range of commercial, agricultural, industrial and residential applications.
